

FRUIT TREES

2020

STONE FRUIT

Apricots

- Aprigold - Grows to only 1.8m. Full size, tangy fruit. Early season. Self-fertile.
- Castlebright - Early variety with good eating quality that is sweet and not too acidic. Self-fertile.
- Cluthagold - Large fruit with a real apricot flavour. Has an orange skin with a slight red blush. Lovely eating. Harvest late January most years. Pollinator: Sundrop
- Garden Annie - Bright yellow skin, firm juicy flesh. Mid-season. Semi dwarf 2-3m. Self-fertile.
- Moorpark - Medium to large size fruit, soft and juicy with superb flavour. Good for fresh, bottling or drying. Mid-season.
- Sundrop - Large oval mid season. Great flavour, good eating or preserving partially self fertile.

Nectarines

- Fillery - A sweet nectarine with golden 'freestone' flesh. The skin is mostly bright red over green.
- Flatto
- Button Bright - Large crops of sweet tasty fruit, yellow flesh. Stunning flowers in spring.
- Goldmine - Medium size, white flesh, red skin, sweet and juicy. Freestone. Mid-season. An old favourite, productive tree with good vigour.
- Lollipop
- "Kay Pearl" - Early red nectarine with white flesh. Freestone good size fruit.
- Mabel - Burgundy-purple foliage. Stunning pink blossom. Leaf curl resistant. 3.5m. Self-fertile.
- Red Gold - Large fruit, sweet flavour. Deep red skin with gold blush and yellow flesh that separates easily from stone. Dessert and bottling. Late season.
- Snow Queen - White flesh, red skin, sweet and aromatic.
- Spring Red - First large nectarine of the season. Beautiful red clear skin. Semi-clingstone.

Nectarines cont/-

- Tasty Gold - Large freestone fruit with a mainly red skin. The yellow flesh has an excellent texture and taste. The fruit will hold well on the tree after ripening for up to 14 days. Heavy regular cropper.

Dwarf

- Flavour Zee - Delicious yellow fruit. Self-fertile.
Garden Delight - Large, juicy, freestone fruit with red skin and yellow flesh.
Nectar Babe - Sweet yellow, juicy, freestone. Deep pink blossom.

Peaches

- April White - A delicious white firm fleshed large peach that has an attractive pink blush.
- Black Boy - Sweet port wine flesh and skin.
- Golden Queen - Golden skin and flesh. Good quality and flavour. Clingstone.
- Paragon - Yellow skin blushed with red. Yellow flesh. Clingstone. Dessert and bottling. Medium to large fruit. Mid-season.
- Peacherine - A cross between peach and nectarine. Healey's is a smooth skinned golden variety with a red flush and juicy flesh ripening in January
- Peachcot - Peach/Apricot cross. Golden yellow skin. Very sweet and tasty. Firm texture. Heavy cropper.
- Wiggins - Red blush over green skin. White melting flesh. Excellent flavour. Early Jan.
- Yumyeong - Very delicious large white crunchy-fleshed peach tropical flavour. Late season

Dwarf

- Bonanza - Freestone, white with red blush.
- Honey Babe - Good taste, medium size red fruit. Sweet firm orange flesh.
- Pixzee - Full sized, yellow flesh, excellent producer.

Plums

- Billington Early - Dark red skin and flesh. Good flavour. Early season.
Pollinator – Black Doris
- Black Doris - Excellent all-purpose plum. Purple-black skin. Dark red, sweet, juicy flesh.
- Elephant Heart - Late season. A large, dark reddish purple conical fruit with purple-red sweet, juicy flesh of very good to excellent flavour. It is a freestone, and useful for fresh eating and canning/bottling.
Upright, vigorous.
- Hawera - Highly recommended. Large plum with dark red skin and flesh. Sweet, juicy and firm. Freestone. Mid-season.
- Omega - Popular with a host of uses. Medium sized, red speckled skin and juicy red flesh. Freestone, Late season. Partially self-fertile.

PIP FRUIT

Apples

- Bolero - Ballerina – green eating, golden blush
- Polka - Ballerina – green skin, red blush, crisp good flavour
- Waltz - Ballerina – large round conical red skin, crisp juicy, slight tang
- Braeburn - Delicious, crisp, juicy, superb sweet-tart flavour. Excellent keeper. Late season. Semi dwarf.
- Bramley's Seedling - Firm juicy. Good cooker. Keeps well. Semi dwarf
- Cox's Orange - The medium sized deep yellow, striped red apple is regarded as the finest English style apple there is. Juicy, tender, yellow flesh.
- Golden Delicious - Honey flavour, very sweet. Great taste texture, and aroma. Heavy and regular cropper. Self-fertile, late season.
- Granny Smith - Large green fruit with a tart, well balanced flavour and crisp, juicy white flesh. Crops late. Keeps well. Semi dwarf
- Hetlina - Crisp, firm and red. Recognised health giving properties. Semi dwarf. Heritage.
- Lady in Red - Pink-red skin with pure white flesh. One of the world's most popular varieties. Flavour is well balanced between tartness and sweetness, with a crisp texture and lovely aroma.

Apples cont/-

- Monty's Surprise - Famous NZ apple with crisp flesh. Good for both eating and cooking. Has exceptional high levels of beneficial health-promoting substances.
- Pacific Rose - A NZ variety that has clear rose-pink skin. It is firm, crisp and juicy sweet flavour. Gala & Splendour cross. Mid-season. Semi dwarf.
- Peasgood Nonsuch - Very large, juicy apple. Semi dwarf. Cooks to a sweet delicately flavoured puree. Good disease resistance. Mid-season. Heritage
- Royal Gala - Reddish green fruit are crisp and sweet. Heavy cropping, but smallish fruit, ideal for children. Late February.
- Splendour - Large pinky red apple with crisp, crunchy white flesh. Sweet with good flavour. Stores well. Tree crops heavily and late.
- Sturmer - Late variety suitable for dessert and cooking. Juicy, easy to grow and keeps well. Small spurred tree, medium vigour.
- Telstar - Crisp melting flesh with very rich, deep flavour. Small to medium fruit with flattened shape. Mid-season, heavy cropper, smaller tree.

Doubles

Hetlina/Montys Surprise

Peasgood Nonsuch/Braeburn

Royal Gala/Granny Smith

Cherries

- Compact Stella - Large dark red cherries. Ripens Christmas. Self fertile
- Dawson - Mid-season variety that has an upright habit. The fruit starts out shiny red, then darkens to almost black when ripe. Is attractive and full of flavour. Semi dwarf
- Rainier - Semi dwarf Large, super sweet, white/yellow fruit with red blush and white flesh. Ripening early to mid-season.

Pears

- Beurre Bosc - Semi dwarf. Superb eating. Large brown fruit, sweet and juicy.
- Beurre Hardy - Outstanding eating juicy pear. Generally self fertile.
- Belle du Jumeat - Extremely juicy and deliciously sweet heritage pear ripens in late January. Sugar pear-pale gold/green skin is often flushed red. Fruit shape is similar to Bosc. Good regular cropper. Fruit ripens on the tree so controlling and measuring maturity is important for picking times.
- Conference - Semi dwarf. Green skin with some russeting. Sweet and juicy. Regular heavy cropper. Self-fertile. Feb.
- Doyenne de Comice - Large classic gourmet pear. Green skin flushed red with white, melting juicy flesh of rich flavour. Tastes like sweetened cinnamon. Mid to late season. Upright & vigorous habit.
- Packhams Triumph - Semi dwarf. Distinctive medium to large totally light yellow-green fruit. Feb/Mar season.
- Williams' Bon Chretien - Semi dwarf Large, greenish-yellow fruit, smooth skin. Flesh is smooth and moderately juicy. Good for bottling and cooking. The tree is vigorous, upright and reliably productive.
