

## **Landscape Design**

We'd like to introduce you to Portstone Garden Centre's landscaping services. Anything from basic one hour on-site consultation to a fully detailed planting plan can be provided by Carol. Whether you have a brand new section or an established garden needing a re-vamp - we do courtyards to country estates, (even quick council consent jobs).

Of course we can also help you with plant supply (sourced both locally and nationwide for the widest range), as well as arrange the actual planting up of your garden.

As a family owned business with landscape experience of 25 years we are very aware of how much a well planned garden can enhance the enjoyment and value of your property. Let us help you create a garden you'll love!
